

PLUMBING DESIGNER/ENGINEER

SCHMIDT & STACY® is a mechanical, electrical and plumbing (MEP) engineering firm. We design high-performance, low-maintenance building support systems. Our goal is to make the client's job easier, working in a team effort with architects, owner/developers and end users. SCHMIDT & STACY® is headquartered in Dallas, TX, with satellite offices in Houston, Fort Worth, Phoenix, Denver, and North Carolina. The firm was established in 1992 and holds registrations in over 40 states.

We currently have an opening for a plumbing designer/engineer for our Dallas, TX office. * **We will consider a remote position for the right person.** This person will support the project manager and work alongside other disciplines in the development of construction documents. The position requires strong organizational and communication skills to meet the deadline driven nature of our work. Ideal candidates will be highly motivated with good communication skills and the ability to work independently and with a team of engineers.

ROLE AND RESPONSIBILITIES

- Responsible for designing plumbing systems for commercial and multifamily buildings
- Preparation of plumbing drawings and specifications based on verbal direction and mark-ups with minimal oversight.
- Size and select plumbing equipment.
- Coordinate plumbing systems with other disciplines.
- Assist with mentoring/leading less experienced plumbing designers.
- Attend coordination meetings with owners, architects and other consultants.
- AutoCAD and Revit modeling.
- Work in a fast paced, team environment.
- Adhere to project schedule to meet client deadlines.

QUALIFICATIONS AND EDUCATION REQUIREMENTS

- 6+ years of plumbing design experience (with MEP consulting firm) required.
- Knowledge of building codes.
- CPD designation preferred.
- Bachelor's degree in an industry related major is a plus.
- Strong knowledge of AutoCAD and Revit.
- Strong communication skills.
- Ability to prioritize multiple tasks.
- Applicants must be professional, self-motivated, detail oriented and have a great attitude.
